

Prof. Amjad Akawazz con suo figlio Hamudi

After Greeting

The children of Iraq and the children of Al Nassiriya specially are suffering from many things . the situation is bad totally in Iraq (living , security and education) and the shortage of services and assistance of the poor . There are many things that I can't describe because the speaking does not explain the aim and does not clarify the real situation without seeing it . When you see it I am sure that you will not hesitate a moment to cut your flesh to give these children every thing they need , who did not commit any sin except they are living in Iraq .

Our God knows every thing because he can see in his generous eye these cases which I talk about .

The world must move at least one step to save these people . Our God created us to each other , so we must understand the meaning of giving which we must do to make God satisfied , also let us make the humanity our goals and rise the flags of high principle top the real humanity faraway from isolation

We are all human and need help of God " Our Creature " Our God had put us on the globe and made us the keepers by our cooperation , so shall we achieve this and make our God satisfied or shall we stand handless ?

there are now male and female from Iraqi children need medicine , food and education . let us work on to fulfill one of these cases or all of them .

There are the orphans and we know what they are suffering from (social , economic and spiritual situation)

The matter is up to you and you can see the children , old men and the disables (men and women) by your eyes . So you are free in behavior and I wish that God will bless you in every matter
